

GEARHEAD GAZZETTE

"IT'S ALL THE *GEARHEAD* NEWS YOU CAN USE"

VOL No. 7

MAY 2007

ISSUE No. 5

EDITOR: JIM BRANDAU PUBLISHED: WHENEVER I CAN DO IT OR ONCE A MONTH MOST OF THE TIME

ROAD RUMBLINGS...

Greetings all you Gearheads,
1st things first. Mom's day is May 13th. Don't forget!!! Take care of the one who took/takes care of you and still does.

This month we have the follow up article to Kris Henderson's attempt at 200 MPH in his 59" Jag over in Maxton NC at the HOT ROD Magazine Challenge. Check out the rest of the story of what it takes to make this kind of deal happen. As you'll read, it aint easy or cheap!!! Check out the **COOL HAPPENINGS IN YOUR GARAGES...** section for the rest of the story.

A few of the Gearheads will have their "too cool" rides on TV pretty soon. Tom Akers of the Bellevue Cruisers had his 70 Mach I filmed by Spike TV's Powerblock for an upcoming show. As soon as we know when it will show, we'll pass it along so you can check it out. Also Mark & Rhonda Delk had their killer BOSS 302 Mustang filmed for Powerblock also. Sounds like they will be on the small screen on May 27th & June 2nd. Way to go Tom, Mark & Rhonda.

I am going to give some recognition to the folks at RTM Productions too. They are located right here in Middle Tn. They do cruise the local shows and cruise nites

looking for more cool rides to have on their different programs each week. As one who got asked to be part of the Powerblock, it is pretty cool and a great surprise when you get contacted. A special thanks to John Kurtz at RTM as he is always ready to look and listen about a ride for the shows.

Speaking of cruising, lots of that going on now that the COLD spell in the beginning of April is gone. It threw the Bellevue guys and Franklin TN gang a big curve ball for the 1st 2 Saturdays, when they were trying to kick off their cruise nite deals. The weather is nice now so get your ride out of the garage and out from under the blanket and go check out the Bellevue Cruisers on Saturday May 5th. The AACA gang did get their 2nd cruise nite in on April 28th at the Sonic on Mallory Lane. Sounds like about 75 rides showed up. I have talked to some of the folks who went there and some concerns being raised on the space available and the holes in the grass field. Give them a chance folks. Moving a cruise nite is not easy.

The Cruise nite in Dickson kicked off on April 21st with a real good turn out. Sounds like they may be tight on space also so get there earlier for a prime spot.

Speaking of kicking off a cruise nite, Friday May 4th, the Murfreesboro Cruise nite kicks off in

grand style again. It will be held again at the Mercury Shopping center parking lot. Sure to be a heck of a crowd based on some of the folks I have talked to, provided the weather (read no rain) is right.

Our Gearhead buddy, Jim Lowe, you know as the "guy in the gray primed truck" sent in some great info on a BIG Power cruise to the SOMERSET Cruise in July. Check out the info in the **"WAY COOL STUFF TO DO"** section. Jim is going to be heading up the segment of the Power cruise from Nashville to Somerset Ky. This one sounds really cool to do, as you get to DRIVE your ride, instead of a park and sit session. Looks like MUSCLE CAR TV may cruise with the Nashville gang, so if you're there you may get spotted for a TV segment.

In closing for this month, If you cant find something to see, do or be part of based on all the events listed here...it's only because you don't want to!!!

Until next issue, keep it between the lines...

Jimmy B.

As always, if you want the **GAZZETTE** direct instead of forwarded 2nd hand, let us know. All you need to do is send me an email at gearheadgazzette@aol.com. You can also always check out the current issue of the **GAZZETTE** on line at www.gearheadgazzette.com in case you erase your copy and need to see it again

"Remember...we're here for a good time...not a long time...Enjoy the Ride".

- JULY 27-28: SOMERSET KY: CHECK THIS ONE OUT!!!** This is some info you might like to pass on to fellow car guys.... Somernites Cruise will be holding their 2nd Annual Power Cruise on July 27, 2007. All of the final preparations for Nashville area are still being finalized but at this time it looks as if we will leave for Somerset Kentucky at @8:00 am sharp Sat. July 28 from Opryland Hotel. Opryland has also verbally committed to holding a cruise on Friday nite 7-27-07 and provide entertainment for the cruisers... There will be Cruisers leaving from Cincinnati, Knoxville, and Louisville that same morning with all of us meeting hopefully about noon in Somerset... There will be Magazine coverage for the rides out of Cincinnati and Knoxville and the Somernites guy told me Horsepower TV mentioned interest in cruising with us from Nashville. Horsepower TV has been to Somernites Cruise 2 times already. The Inaugural 2006 Power Cruise had just over 400 Powercruisers from 3 cities (Knoxville, Cincinnati and Bowling Green) with about 1100 cars at the show. We all arrived by police escort and were treated to a barbecue lunch at the High School. The goal for 2007 is 1000-1500 Powercruisers with 2000 plus show cars !!! I have been at Somerset when they had just over 1500 cars in the show. What a site!!! And its all free!! If you know of anyone going tell them to make motel reservations ASAP and pre-register on the Somernites web site so they can feed us all.... I have been asked by the Somernites Cruise staff to help organize and spread the word in this area. I will have new Brochures and info the 1st week of May and will start to hand them out at Murfreesboro on Fridays and in Franklin and Bellevue on their cruise nites. FOR MORE INFO CONTACT: Jim Lowe aka "The Guy in that Gray Primered Truck" 615-210-3244 **A GEARHEAD GAZZETTE PICK EVENT!!!**
- * JULY 28-29: HOPKINSVILLE KY: 4TH ANNUAL SOUTHERN SLAM.** SHOW BEING HELD AT JAMES E RUCE CONFERENCE CENTER ON HWY 41A SOUTH IN HOPKINSVILLE KY. OVER 30 CLASSES, SPECIALTY AWARDS, DRAG & BRAG, NEON CONTEST, BIKINI CONTEST AND MORE. FOR MORE INFO CALL 270-839-3598 OR GO TO www.vaperz.com .

SEND THE PICTURES AND INFO ON YOUR RIDE OR YOUR FRIENDS RIDE AND WE'LL SHOW IT OFF RIGHT HERE!!

IN PURSUIT OF 200 MPH

We went to Maxton with 200 in our sights however it eluded us again. Off the trailer the Jag went 186 and was unable to top that speed for the rest of the event. On that run the N2O pressure was around 800 psi which is 250 psi shy of good operational pressure. The turbo setup was removed 3 days prior to the week-end in favor of a N2O setup to get away from the 1700-1800 degree exhaust temps. The high EGT were the result of too small of turbo's creating backpressure in the headers. The N2O was adjustable to 500 hp which could bring the 8.25 to 1 355 to life and maybe push the car to 200. The gremlins started when the 12 bolt rear axle yoke exploded in 3rd gear with shrapnel piercing the side wall of rear tire. Most teams would have packed up and left but not the dedicated crew that supported the Jag effort. Chuck Henderson, Britt Mayfield, Dave Kixmiller, Jim States, and Pete Brown went above and beyond to help round up parts. Passenger car 12 bolt yokes are not just laying around but after asking around in the pits a local person said he had an extra yoke we could use. Dave and Jim went to several stores till they surfaced with a tube to fix the tire. We beat out the busted u-joint, installed the yoke, and repaired the tire and were still able to attend the awards banquet Sat night at 8:00. Sun morning the gremlins hit again when the second stage N2O button fell through the shifter cover but went through the traps at 177 mph on a 225 hp hit of spray. Next pass with N2O pressure cranked to kill (1150 psi) we set out to lay down a number. The car left harder than ever with the first stage of spray engaged 2 foot of the line then when 2nd gear was pulled the other 225 stage was engaged. I have never felt the car accelerate at such a pace and knew we were on a good pass! I usually release one stage of N2O when shifting to third so the trans doesn't take so much punishment but on this pass both stages were deployed through the shift to extract every bit of speed we could muster. Half way through 3rd the engine developed a miss and the car fell off to 170 mph. It was thought a melted piston was the cause of the miss however through further investigation a burnt exhaust valve was the problem. We wonder if the high exhaust gas temp experienced on the turbo setup might have already damaged the integrity of the exhaust valves thus leading up to the failure of the valve. The cyl heads will be removed shortly and will let every know what happened. I can not thank the crew enough for their effort in helping at the track. This type of racing requires talented individuals working together to put a quality race effort together and would not run as well without their help. Thanks to everyone who helped me with the car over the past several months ----- there is no way I could have done this alone. By the way the winner of real street layed down a 212 mph run with a 71 camaro with a SB2 headed SBC and single stage N2O plate. It must be nice to have a NASCAR engine in your street car!!!
